Headteacher – Mrs T Rogerson

Monday 1st February 2010

Dear Parents and Carers,

e-Safety Seminar for adults, 18th March 2010, 6:30pm

In a digital and electronic age when wireless technologies allow almost constant access to the internet it has never been more important to know how we can educate our young people to be as safe as possible in cyberspace.

To assist us in our role as co-educators of your children we have invited Andy Nunn (ICT Teaching and Learning Consultant for East Riding Council) to make a presentation to parents and any carers on 18th March at 6:30pm in the school hall. As well as outlining how we deal with e-Safety issues at school Andy will cover;

- Key ways of children staying safe on the internet
- How to make the best use of the parental controls of Windows
- How to engage young people in meaningful dialogue on e-safety issues
- Resources that are available to families to facilitate e-safety at home
- Information on issues around instant messaging
- Information about young people and social networking sites such as Facebook
- Recent concerns around web based gaming and how to tackle them

We would encourage as many of you as possible to make a date to hear Andy on 18th March at 6:30pm. It may be that a grandparent or aunt or uncle may wish to attend if they take a child care role within the family.

We would appreciate an indication of the numbers that may attend. Please complete the confirmation slip below and return to school.

Please remember that this session is for adults only.

Yours sincerely,

Jonathan Roe
ICT Coordinator

I would like to reserve _____ places at the e-Safety seminar on 18th March.

(Parent or Guardian)
